AGRICULTURE EDUCATION

AWN-2002-12

WHEREAS, our society now has three to four generations that are removed from the land and are continuing to take food and its production for granted and

WHEREAS, unlike Europe where past famines remind residents of the need for farms and ranches, the United States has normally experienced agricultural surpluses, and

WHEREAS, less than 2 percent of the work force in America is involved in any Agriculture food and fiber industry, and

WHEREAS, groups often tell only one side of the issues in Agriculture, and

WHEREAS, Americans should never become dependent on foreign countries for food, and

WHEREAS, the future of Agriculture depends greatly on our ability to educate Americans starting with K-12 and continuing to everyone

NOW, THEREFORE BE IT RESOLVED, that Progressive 15 will actively work to use selected media outlets including our website to educate and promote a balanced picture of agriculture.

Adopted this 21st day of March 2002.

Extended for 5 years this 16th day of March, 2007
