## COLORADO'S STRATEGIC PLAN FOR NOXIOUS WEED MANAGEMENT

AWN-2002-11

**WHEREAS**, To stop the spread of noxious weed species in Colorado and restore degraded lands of exceptional agricultural and environmental value during the 21st century and

**WHEREAS**, the Colorado Department of Agriculture has developed a strategic plan for noxious weed management and

**NOW THEREFORE BE IT RESOLVED**, Progressive 15 endorses and supports the Colorado Department of Agriculture strategic plan, which includes the vision, mission, and goals as established in the strategic plan and

**BE IT FURTHER RESOLVED**, Progressive 15 will support efforts of the State Weed Coordinator and other organizations to implement and achieve the objectives of a statewide effort to manage noxious weeds, and in particular tamarisk, along state waterways.

*Adopted this 21<sup>st</sup> day of March 2002*

*Amended this 16<sup>th</sup> day of March, 2007*
