## HIGHWAY DESIGN STANDARDS

TE-2001-2

**WHEREAS**, Highway safety is of the utmost importance to the people of the Progressive 15 area; and

**WHEREAS**, one component of highway safety is the design of the highways; and

**WHEREAS**, design components such as lane width, shoulder width, bridge width, corner radius, intersection configuration, etc. are extremely important for highway safety; and

**WHEREAS**, consistent design standards will enhance highway safety.

**NOW, THEREFORE BE IT RESOLVED**, that the Colorado Department of Transportation use consistent highway design standards for highway segments carrying similar traffic loads.

*Adopted this 25th day of October 2001*

*Extended for 5 years this 16<sup>th</sup> day of March, 2007*
